
Times of activation: MON - THU 0800 - 1600++ and FRI 0800 - 1100++, CLSD HOL.

Military VFR traffic except VFR arrivals / departures to / from Ramstein have to contact POLYGONE INFORMATION 2 Minutes prior entering RAFIS mandatory area. An area with flight restrictions ("area Zweibrücken") has been established in the confines of CTR Zweibrücken (airspace D) for the conduct of military training missions in POLYGONE. During activation of "area Zweibrücken" permission for entry or transit will in principal only be issued to military aircraft by the responsible unit.

Weather minima of the surrounding airspace G and E are to be applied. Sector Pirmasens is excluded from flight restrictions. Rules and regulations for airspace D remain in that sector, when CTR Zweibrücken is active.

Information about the status of the area and the conditions for entry or transit can be obtained at POLYGONE INFORMATION, LANGEN RADAR or ZWEIBRÜCKEN TWR
